FOTBOXING

Faculty Boxing Initiative – Rise of the New Team

Boxing is more than a sport — it's discipline, confidence, and strength.

Although our main university team trains in Colombo, many passionate students from our faculty in Homagama face challenges in joining them.

Under the guidance of our university coach, we've decided to bring the spirit of boxing here — to our own faculty.

This is the beginning of a new journey: to train, to grow, and to prove that determination beats distance. Let's build our own ring. Let's fight for our passion

LEGENDARY COACH

IBA 3-Star Boxing Coach, 7-time National Champion, and NVQ Level 5 Physical Fitness Trainer. Expert in technical development and performance optimization, with international coaching success.

Our boxing program is guided by an IBA 3-Star Certified Coach with over 15 years of experience in the sport. A 7-time National Champion and a proud representative of Sri Lanka at prestigious international events such as the Commonwealth Games and Asian Games, our coach brings world-class expertise, discipline, and passion to every training session. His deep technical knowledge and strategic insight inspire us to train harder, aim higher, and build a new generation of champions.

FACULTY FACILITIES

Our faculty provides essential boxing training equipment to help athletes develop their skills and fitness.

We are equipped with punching bags, gloves, skipping ropes, bandages, training pads, and weights — everything needed for effective strength, endurance, and technique development.

These facilities allow us to create a focused and disciplined training environment right here on campus.

YOUR GOALS

Freshers' Tournament
Inter-Faculty Championship
Novices Boxing Championship
Intermediate Boxing Championship
Provincial Meets
Nationals

Fight for your dreams – no one else will do it for you

TRAINING STRUCTURE

@ UOC Indoor Gymnasium

2. Faculty Practices

Tue-Thu-Sat (Time can be adjust as your availability)

@UOC/FOT SportRoom

3. Beach Training

@Mount-Lavnia Beach

TEAM & PARTICIPATION

Our boxing team is built on passion, dedication, and unity. Each member, whether beginner or experienced, shares one goal — to push limits and grow stronger together.

We welcome all students who have the courage to step forward and train with discipline and heart. No prior experience is required — just the will to learn and improve.

Together, we're not only building fighters — we're building a family that represents our faculty with pride and determination

FITNESS BENEFITS

Boxing is not just about punches and power — it's about building a strong, focused, and disciplined mind.

Through training, we learn patience, self-control, and resilience. Every round in the ring teaches us how to stay calm under pressure, think strategically, and never give up, no matter how tough it gets.

It shapes confidence, sharpens focus, and develops the mental toughness needed to face challenges both inside and outside the ring.

Boxing builds a mindset of strength, respect, and perseverance — the true qualities of a champion.
